

D160S 60 TON PORTABLE CRIMPER

Weighing only 50 Lb the 60 Ton cylinder has the capacity to crimp up to 1 inch 6 wire hose, the D160S is a truly "portable" 60 Ton crimper that can be carried to most any location where service is required.

D160S Features

- High strength aluminum flanges and tubular frame make this a truly "portable" crimper.
- Removable pusher and inverted die position make accurate fitting positioning easy.
- "Micro Site" indicator assures accurate and repeatable crimps.
- Micrometer style adjustment permits crimping a wide variety of hose and fittings without the need for special shims or spacers.
- Base mounting holes allow the crimper to be bench or truck bed mounted if required.
- ValPower® Hand or Pneumatic 10,000 psi pumps make this the perfect "go anywhere portable crimper"

D160S FEATURES

60 Ton crimper in a portable unit

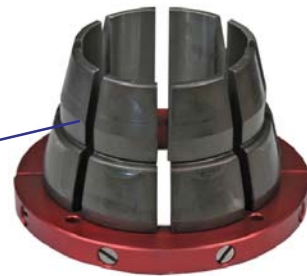

Features that make the D160S crimper from CustomCrimp® the best portable 60 Ton crimper available

Removable pusher makes it easy to insert right angle or special fittings.

Crimper position can be adjusted for optimum crimping position or dropped to vertical position for better balance when the crimper is being carried.

A "MicroSite" indicator on the micrometer allows the operator to make accurate, repeatable crimps.

Inverted die positioning gives good visibility allowing the operator to accurately position the fitting prior to making the final crimp.

The D160S paired with either a ValPower® Hand Pump or Pneumatic pump make the perfect combination for portable crimping requirements.
